D. Harmonisation of assessment results with the HS Standard

Topics meeting good practice requirements:

Topics meeting best practice requirements (for HSAP assessments):

Please put a check mark (✓) in the boxes

I fully understand that the harmonisation process will require transferring the HSAP or HESG assessment results into the HS Standard reporting template and undergoing a public comment period.

I confirm my ability to cover the costs of an Accredited Assessor(s) to transfer the HSAP or HESG assessment results into the HS Standard reporting template.

The HS Secretariat will not share my confidential information with any third party without my express permission.
